WHEREAS, the Board of Trustees of the University of Arkansas (the "Board") is authorized under the Constitution and laws of the State of Arkansas, including particularly Arkansas Code of 1987 Annotated, Title 6, Chapter 62, Subchapter 3 (the "Act"), to borrow money for the purpose of acquiring, constructing and equipping capital improvements for use by the University of Arkansas System (the "System") and to refund bonds issued under the Act to finance such capital improvements; and

WHEREAS, the Board has previously issued its Various Facilities Revenue Refunding Bonds (UAMS Campus), Series 2014 (the "Series 2014 Bonds"); and

WHEREAS, the Series 2014 Bonds are currently in the outstanding principal amount of \$63,025,000, and the Series 2014 Bonds maturing after March 1, 2025 are subject to optional redemption by the Board without penalty on and after March 1, 2025; and

WHEREAS, it has been found and determined, based on the advice of the staff of the System and the University of Arkansas for Medical Sciences ("UAMS"),

that the Board can, based on current market conditions, recognize net present value savings by the refunding of all or portions of the outstanding Series 2014 Bonds (the "Refunding"), and that the Refunding should be financed by the Board's Various Facilities Revenue Bonds (UAMS Campus) (the "Bonds"), the proceeds of the sale thereof to be used for accomplishing the Refunding and paying the costs of issuing the Bonds; and

WHEREAS, the Bonds are to be secured pursuant to a Master Trust Indenture dated as of November 15, 2004 (the "Master Indenture") between the Board and The Bank of New York Mellon Trust Company, N.A., as successor trustee to The Bank of New York Trust Company, N.A. (together with any successor thereto, the "Trustee"); and

Section 1. After receiving advice from and the recommendation of the Vice President for Finance and Chief Financial Officer of the System and the Vice Chancellor for Finance and Chief Financial Officer of UAMS, all or any portion of the Series 2014 Bonds may be refunded if such refunding would produce an aggregate net present value savings of at least three percent (3%) of the principal balance of the Series 2014 Bonds being refunded. Each series shall have a series name that reflects such series as "Refunding" and each series may have a series name that reflects if such series is taxable for federal income tax purposes.

Section 2. The Bonds shall be general obligations only of the Board, and the Bonds shall be secured by a pledge of all of the revenues attributable to inpatient services and other ancillary, therapeutic and diagnostic services provided within the walls of the Hospital, as defined in the Master Indenture, excluding (a) physician-generated revenues, (b) all State appropriations, and (c) those revenues classified as "Restricted Revenues" pursuant to accounting standards used in performing the annual audit of UAMS (the "Pledged Revenues"); provided, however, that such Pledged Revenues are subject to previous pledges to Existing Obligations (to the extent outstanding) as described in the Master Indenture and shall not include any fees authorized or imposed by UAMS and dedicated to a specific purpose unrelated to obligations issued pursuant to the Act or to facilities funded with such obligations.

Dr. Ed Fryar, Chair Mr. Tommy Boyer

Mr. Steve Cox

Mr. Sheffield Nelson

Mr. Jeremy Wilson

Dear Committee Members:

Items placed on the Academic Unanimous Consent Agenda are matters which traditionally receive the unanimous support of the Board; however, any item may be singled out for discussion. I am requesting that you consider the following items on the Unanimous Consent Agenda for the January 29-30, 2025 Academic and Student Affairs Committee meeting.

1. University of Arkansas at Little Rock

- A. New Certificate Program
 - Certificate in Conflict Management. (Using existing courses to create an 18-credit hour certificate intended as a stackable certificate for students to take in addition to their other majors. This program is reported to experience a growth in 31.1 % in job force demand between the years of 2019 and 2025, reflecting a national growth trend of over 6,000 jobs by 2025.)
- B. Existing Program to be Offered 100% by Distance Technology
 - Cybersecurity Graduate Certificate (*The move to the online campus enables a broader audience to participate. Specifically, it accommodates students who are already engaged in online programs and are seeking to access the additional courses offered within the Cybersecurity Graduate Certificate.*)
 - National Cyber Teaching Academy Certification (*The demand for cybersecurity professionals is very high and is expected to grow significantly in the near future.*One way to build the pipeline is to increase the number of cyber teachers nationally. The U.S. Bureau of Labor Statistics forecasts a 33% increase in cybersecurity jobs from 2022 to 2032, whereas the average growth for all jobs is 3%. Currently, on LinkedIn, there are 4,300 cybersecurity job openings in Arkansas alone.)

2. <u>University of Arkansas, Fayetteville</u>

- A. Program Reconfiguration
 - Reconfigure Geography degree from a Bachelor of Arts to a Bachelor of Science. (The curriculum revisions ensure that undergraduate geography majors have a capstone course in the major, along with three new concentrations that allow students to focus their interest across this diverse discipline.)
- B. Curriculum Revision of Program/Option/Emphasis/Concentration/Minor
 - Bachelor of Arts in Art History in the School of Art within the Fulbright College of Arts and Sciences, effective Fall 2025. (Proposed changes will streamline degree requirements, all with the goal of increasing student access to the major, reducing the major's bureaucratic complexity, and expanding student choice in course selection. Specific revisions include dropping a foreign language requirement aligning the major with others in Fulbright College and removing a requirement for elective courses in Studio Art, which are not essential to the field of art history or standard for such degrees.)
 - Bachelor of Music in Music Education in the Department of Music, effective Fall 2025. (Revising to comply with new Arkansas Department of Elementary and Secondary Education guidelines for teacher preparation programs. Course changes include an increase in the number of hours of residency, as well as course updates to reflect current research and practice.)
 - Doctor of Nursing Practice in the Eleanor Mann School of Nursing within the College of Education and Health Professions, effective Fall 2025. (*Program was redesigned to meet new Essentials for Nursing Practice as dictated by the program's accreditor CCNE/AACB, requiring all BSN and higher Nursing Schools to move to competency-based education.*)
- C. Delete Program/Option/Emphasis/Track {No students active in these programs}
 - Master of Education in Educational Equity, effective Fall 2025.
 - Blockchain Enterprise Systems Management concentration in the Master of Information Systems program in the Department of Information Systems, effective Fall 2025.
 - Policy Studies in Aging concentration in the Doctor of Philosophy in Public Policy program within the Graduate School and International Education, effective Fall 2025.
- D. New Option, Emphasis, Concentration or Minor
 - 2-Dimensional Quantum Materials and Devices concentration in the Master of Science in Materials Engineering program, effective Fall 2025. (The proposal is the result of a recent \$3M NSF-NRT award to provide graduate training in 2-dimensional materials. This new and fast-growing field of materials research has applications ranging from sensors to memories to quantum computing. The creation of the concentration fulfills a requirement of the award which includes formalizing a path for students entering this field within the degree program.)

• 2-Dimensional Quantum Materials and Devices concentration in the Master of Science in Materials Science program, effective Fall 2025. (This new and fast-growing field of materials research has applications ranging from sensors to memories to quantum computing. The creation of this concentration fulfills a requirement of the award which includes formalizing a path for students entering this field within the degree program.)

E. Title or CIP Change

- Change Topical concentration in the Bachelor of Arts in English to Literature and Cultural Studies concentration. (*The proposed name change better reflects the nature of the content covered within the concentration. The new title provides clarification for the coursework required to complete the concentration.*)
- Change Blockchain Enterprise Systems concentration in the Bachelor of Science in Business Administration to Emerging Technology concentration. (*The change in title is recognition of the fast pace of change in the information systems discipline, a discipline where cutting-edge technologies change quickly. This title change is implemented to provide a title that will remain relevant in spite of changing technologies. Curriculum changes were also made in support of the title update.)*

3. University of Arkansas at Monticello

A. Curriculum Revision of Program/Option/Emphasis/Concentration/Minor

- Associate of Science in Criminal Justice (Modify to provide a broader overview of the field, including introductory courses in all main fields of the justice system making the degree more relevant to students who plan to pursue a career after completing the A.S. Changes to elective hours and reduction of supportive requirements allow transfer students to complete the degree in a timely manner.) UAM also requests that this program be designated as 50% online.
- Bachelor of Science in Criminal Justice. (Modification will align the B.S. with the changes made to the A.S. in Criminal Justice. The number of supportive requirements is being reduced as there was significant overlap between the content being taught; other supportive requirements were deemed to be unnecessarily restrictive. The reduction of supportive requirements streamlines the degree requirements and allows a less restrictive path towards degree completion.) UAM also requests that this program be designated as 50% online.

4. University of Arkansas – Pulaski Technical

A. New Off-Campus Instruction Center

• Metropolitan Emergency Medical Services (MEMS), located at 1121 West 7th Street, Little Rock, AR, 72201. (Offer the existing Certificate of Proficiency in Emergency Medical Technology, Technical Certificate in Emergency Medical Sciences – Paramedic, and Associate of Applied Sciences in Emergency Medical Sciences. The partnership will allow MEMS employees to earn the listed credentials through UA-PTC while completing the required programmatic coursework at the

MEMS location. MEMS will be responsible for the faculty and student resources, facilities, and equipment. UA-PTC will maintain oversight and ownership of the curriculum to ensure consistency in quality with the existing program cohort.)

B. Curriculum Revisions

- Associate of Applied Science in Occupational Therapy Assistant. (Required to align with the revised Accreditation Council for Occupational Therapy Education (ACOTE) standards.)
- Associate of Applied Science in Drafting and Design Technology. (*Minor revisions to align with industry standards and improve stackability of all three drafting credentials.*)
- Technical Certificate in Drafting and Design Technology. (*Align with industry standards and improve stackability of all three drafting credentials.*)
- Certificate of Proficiency in Drafting and Design. (Align with industry standards and improve stackability of all three drafting credentials.)

C. Title Changes

- Technical Certificate in Early Childhood. (Change from Certificate of Proficiency Early Childhood Development to align with other programs across the state and the programmatic standards recommended by the National Association for the Education of Young Children.)
- Certificate of Proficiency in Early Childhood Development (Change from Certificate of Proficiency Early Childhood Development to align with other programs across the state and the programmatic standards recommended by the National Association for the Education of Young Children.)
- D. Program Reactivation, Title Change, CIP Code Change, and Curriculum Revision
 - Associate of Applied Science in Construction Technology (Reactivate Associate of Applied Science Construction Management Technology from inactive status, change title to above, CIP code change from 15.1001 to 46.0412, and curriculum revisions. All changes made to align with the needs of industry including a focus on site supervision.)
 - Technical Certificate in Construction Technology. (Reactivate Technical Certificate in Construction Management from inactive status, change title to Technical Certificate in Construction Technology, change CIP code, and make curriculum revisions. All changes were made to align with the needs of industry including a focus on site supervision.)
 - Certificate of Proficiency in Construction Management. (Reactivate from inactive status, title change from CP Certificate of Proficiency Construction Management to Certificate of Proficiency Construction Technology, change CIP code and

TO MEMBERS OF THE BUILDINGS AND GROUNDS COMMITTEE:

Mr. Ted Dickey, Chair

Mr. Tommy Boyer

Mr. Steve Cox

Mr. Sheffield Nelson

Col. Nate Todd

Dear Committee Members:

Chancellor Charles Robinson at the University of Arkansas, Fayetteville, is requesting approval to convey to the City of Fayetteville certain real property, along with associated easements, in Fayetteville, Washington County, Arkansas related to the City's Sain Street Extension Project and Millsap Road / College Avenue Improvement Project.

The City of Fayetteville undertook the Sain Street Extension Project in an effort to provide a continuous route between Joyce Boulevard and College Avenue. As part of that project, the University and City executed a Right of Entry for Construction agreement to perform construction and improvements on a parcel of University property that included improvements along Sain Street and added a new section to the University's existing parking lot, replacing those parking spaces taken by the street improvements and adding ten new parking spaces to the lot. The City has also constructed associated drainage improvements at no cost to the University.

As a part of this project, the University has realized the following specific benefits:

- Extensive repair of existing irrigation system valued at approximately \$20,000.
- Extra sod (in lieu of seeding) on University property valued at approximately \$7,000.
- 4 bus stop pads and 2 driveways with pavers built to University specifications valued at approximately \$76,000.
- Replaced some existing and installed some new LED parking lot lights valued at approximately \$22,000.
- Construction of additional parking spaces.

The Right of Entry for Construction agreement and exhibits have been included for your information. Subject to the Board's approval, the University desires to convey a strip of the improved property along Sain Street, as well as permanent drainage and grading easements, to the City for the City's maintenance and overall street improvement plan. The appraised value of the strip of property and easements is \$224,200, although \$12,400 of that amount

2404 North University Avenue / Little Rock, Arkansas 72207-3608 / 501-686-2505

Buildings and Grounds Committee Page 2 January 17, 2025

consists of the value of the drainage easement necessary for the improvements directly benefiting the University. The cost to the City for the University parking lot improvements is approximately \$74,754.67.

Additionally, the City of Fayetteville has undertaken the Millsap Road / College Avenue Improvement Project. A portion of this project includes connecting Sain Street to Millsap Road via an extension of Hemlock Avenue on the East side of the Uptown Campus property and also includes improvements on Millsap Road which will improve traffic flow and routes in the entire area.

As part of that project, the University of Arkansas will realize the following benefits:

- Reconstruction of existing private drive as public street including sidewalk and drainage at an estimated cost to the City of \$650,000.
- Removal of all future maintenance responsibilities for this drive.
- Providing a much safer and more convenient access to the campus.
- Providing a better route for University Transit to access the campus, including wider roads and safer intersections.

The Chancellor feels that the benefits to the public and University, with the addition of more sidewalks, transit benefits, and greater ease of access associated with the overall project, make the project worthwhile.

Subject to the Board's approval, the University desires to convey a strip of the improved property along Hemlock Street, as well as temporary construction easements and permanent drainage easements, to the City in exchange for the City providing the improvements at no cost to the University. The conveyances would be subject to an agreement by the City that if the City has not substantially completed the improvements within a five-year period, the University would have the option to require that the property be conveyed back to the University. The appraised value of the strip of property and easements is \$356,600.

I concur with Dr. Robinson's recommendation and have attached resolutions for the projects for your consideration.

Sincerely,

Jay B. Silveria

Col. Nate Todd

Dear Committee Members:

Dr. Brian Shonk, Chancellor of the University of Arkansas Community College at Batesville, has requested project approval and selection of design professionals for the Farm and Ranch Management ("FARM") Project to be located at the UACCB Gateway Center. A copy of the Capitol Project Proposal form is attached for your reference.

The selection guidelines have been followed in accordance with Board Policy. Five firms responded to the Request for Qualifications, and three of these firms were interviewed on January 2, 2025. Scoring of the three firms resulted in a three-way tie. Fennell Purifoy Architects serves as UACCB's on-call architect and the firm is familiar with the Gateway Center project. Based on this, Fennell Purifoy is **highlighted in bold as preferred** for the Board's consideration:

CAPITAL PROJECT PROPOSAL FORM

Campus: University of Arkansas Community College at Batesville

Name of Proposed Facility: The FARM at UACCB (Farm and Ranch Management)

1. Proposed function of project. If the proposed project is new construction, describe this project's role in the campus master building plan.

UACCB is proposing the renovation of a 100,000 square foot industrial building constructed in the 1960s. The focus will be on the renovation of the approximately 30,000 square foot front/east portion of the building. The project includes updating utilities; constructing six offices, restrooms, two multi-use rooms/classrooms, and a computer lab; adding storage, maintenance, custodial, and common spaces as required; and developing a master plan for the entire 55-acre property, which involves constructing various structures for an educational working farm. Project budget is approximately \$3,000,000. This is a grant funded project.

2. Proposed facility location & description (attach map).

The FARM project will be located on property purchased in October 2022, physically located at 2210 E. Main Street, approximately 1/3-mile from main campus.

3. Total estimated project cost, including construction and design, land acquisition and fixtures.

The land was purchased in October 2022, at a cost of \$500,000. It included a 100,000 square-foot industrial building in need of repair. This capital project proposal request is for the repair of the primarily front (east) approximately 30,000 square feet of the building to make it a usable space for educational programming in the areas of agriculture, manufacturing, truck driving and heavy equipment. The total estimated cost for repairs for this phase of the project is \$3,000,000.

4. Total estimated cost of furnishings.

Approximately \$100,000 for furnishings.

5. Estimated time to substantial completion.

Substantial completion is estimated to be between August and December of 2025. This is a grant funded project and requires the first classes to be offered on-site no later than August 2026.

6. Parking plan to support new or expanded facility.

Parking currently exists - primarily gravel parking, with some asphalt parking.

7. If this project will be phased, or is part of a phased, or multi-step, project, describe each proposed phase, the estimated timeline for subsequent phases, and the estimated cost of each phase.

This is a multi-phase project.

Phase 1 - Purchase, clean, and secure the property. Completed October 2022 - June 2023

Phase 2 – Renovate back/west approximately 71,500 square feet in preparation to lease. In progress, although the cost to renovate has far exceeded estimated value and this phase is likely to repurposed.

Phase 3 – Construct commercial truck driving training pad. Projected completion August 2025.

Phase 4 – Renovate the front/east approximately 30,000 square feet of building as part of this proposal. Projected completion December 2025.

Phase 5 – Continue to build out FARM. Future/ongoing based on securing funding.

8. Source of project funds. Where borrowing is proposed, include an estimated cost of financing.

Project funds are available through the award of an Office of Skills Development Higher Industry Readiness through Educational Development (HIRED) grant in the amount of \$5,000,000. The award was made on November 14, 2024, with the Memorandum of Understanding signed on December 13, 2024, and ends on December 31, 2026.

Office of the President

January 17, 2025

TO THE MEMBERS OF THE BOARD OF TRUSTEES

Dear Trustees:

Arkansas Code Annotated 25-16-902 requires every state board to authorize expense reimbursement for each board member by a majority vote of the total membership. This vote is necessary at the first regularly scheduled meeting of each calendar year to authorize expense reimbursement for each board member for performing official board duties.

The Law does not change the reimbursement policy (Board Policy 260.1 regarding official functions) currently in place for the University of Arkansas Board of Trustees, but requires the Board to authorize such reimbursements by majority vote of the total membership of the Board.

A proposed resolution to comply with ACA 25-16-902 is as follows.

BE IT RESOLVED BY THE BOARD OF TRUSTEES OF THE UNIVERSITY OF ARKANSAS THAT the Board of Trustees, by a majority vote of the total membership, authorizes expense reimbursement for each board member for performing official board duties in calendar year 2025.

BE IT FURTHER RESOLVED THAT the action by the Board will be fully documented in the official minutes of the meeting held on January 29-30, 2025.

Office of the President

January 17, 2025

TO MEMBERS OF THE BOARD OF TRUSTEES

Dear Trustees:

Like many institutions around the country, campuses of the University of Arkansas have begun reviewing existing endowed funds and scholarships in light of the decision of the U.S. Supreme Court in *Students for Fair Admissions v. President & Fellows of Harvard College*, 600 U.S. 181 (2023), which also extended to a public institution, the University of North Carolina. In its decision, the Court determined that it is unconstitutional under the Equal Protection Clause to use race as a selection criterion in university admissions, even if it is only one among multiple factors considered. Although the facts of the case involved college admissions, the Court's opinion spoke in broader terms that questioned the state's authority "to use race as a factor in affording educational opportunities among its citizens." The logic of the ruling extends to a university's administration of scholarships—an area that has been the focus of enforcement activity by the U.S. Department of Education Office for Civil Rights in recent years.

In light of the Supreme Court's decision, the University's Office of the General Counsel has determined that certain aspects of some existing scholarship endowment funds are no longer consistent with applicable law and must be changed. Consequently, because of this change in conditions, it is no longer possible to fulfill certain purposes of those endowments as established. Additionally, it is possible that further review of campus records will reveal additional endowments with impermissible restrictions.

Board of Trustees Policy 470.2, *Investment and Administration of Endowments and Operating Funds*, which is applicable to all endowments and incorporated by reference in university gift agreements, provides in part as follows:

Restrictions as to eligible beneficiaries of an endowment shall be consistent with applicable law. To the extent an endowment shall be determined to be illegal or unconstitutional, the Board may change the endowment to comply with the applicable law and to accomplish, as nearly as possible, the purposes of the endowment.

The policy further provides that, if "because of changed conditions, it becomes impossible or impracticable to fulfill the purposes for which an endowment is established, the Board may direct that the endowment be used for other purposes as closely related as possible to those purposes for which the endowment was established. In such event, the University will, to the extent practicable, consult with the donor or the donor's heirs, descendants, personal representatives, legal representatives or officers, or other such persons as may be appropriate."

Board of Trustees Page 2 January 17, 2025

Consistent with Board of Trustees Policy 470.2, the Office of the General Counsel recommends that the Board direct all campuses to conduct a review and make modifications to gift agreements and related scholarships as necessary to comply with applicable law and to accomplish, as close as possible, the purposes for which the respective endowments were created. The goal of the changes is to ensure that donor intent can be carried out to the greatest extent possible and that University of Arkansas students with demonstrated need can continue to benefit from these generous gifts for years to come. Potential revised and legally allowable selection criteria will be consistent with these priorities and generally consist of having significant financial need, first generation college-going status, being from a geographic area that is less well-represented at the University, and a having record of overcoming challenges. Modifications will also address any updated administrative structures for scholarships.

As part of this process, campuses will seek to contact donors or other appropriate representatives for all of the funds for which changes are requested to share information about the legal requirements stemming from the Supreme Court's decision that necessitates revisions.

Accordingly, General Counsel David Curran recommends your approval of the proposed resolution, which is attached for your consideration. I concur with this recommendation.

Sincerely,

Jay B. Silveria

RESOLUTION

WHEREAS, following the decision of the U.S. Supreme Court in *Students for Fair Admissions v. President & Fellows of Harvard College*, 600 U.S. 181 (2023), pertaining to use of race as a selection criterion, the University's Office of General Counsel has determined that certain aspects of some existing scholarship endowment funds regarding eligible beneficiaries are no longer consistent with applicable law and must be changed and, further, due to changed conditions, it is no longer possible to fulfill certain purposes of those endowments as established; and

WHEREAS, modifications to the funds are necessary to comply with applicable law and to accomplish, as close as possible, the purposes for which the respective endowments and scholarships were created, consistent with current campus administrative structures; and

WHEREAS, the Board seeks to ensure that donor intent can be carried out to the greatest extent possible consistent with governing law and that University of Arkansas students with demonstrated need can continue to benefit from these generous gifts for many years to come; and

WHEREAS, under such circumstances, Board of Trustees Policy 470.2 authorizes the Board to change endowments to comply with applicable law and to accomplish, as nearly as possible, the purposes of the endowments;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF TRUSTEES OF THE UNIVERSITY OF ARKANSAS THAT the Board hereby directs campuses to identify any scholarship endowment funds that require modification in light of the Supreme Court's decision and to work with the Office of the General Counsel to develop and implement modifications consistent with this resolution and with current administrative structures.

BE IT FURTHER RESOLVED THAT, to the extent an endowment fund currently permits consideration of a selection criterion that is impermissible in light of the Supreme Court's decision, the Board directs that campuses utilize permissible modifications that honor as closely as possible donor intent (for example, having significant financial need, first generation college-going status, being from a geographic area that is less well-represented at the University, and a having record of overcoming challenges) and that such modifications shall be subject to review by the Office of the General Counsel and by the University of Arkansas Foundation.

BE IT FURTHER RESOLVED THAT the Board directs that campuses shall seek to contact donors or other appropriate representatives for all of the funds for which changes are requested to share information about the legal requirements stemming from the Supreme Court's decision that necessitate revisions and that such revisions shall be completed as soon as possible and no later than June 30, 2025, and that each campus shall notify the President when such process has been completed.

FURTHER RESOLVED THAT the Board expresses its continued thanks for the generosity of the donors who have established these endowments to benefit future generations of students.

The Board consists of 12 members who are appointed by the governor and serve staggered six-year terms. The Arkansas Department of Higher Education (ADHE) serves as the administrative staff for the Board. ADHE develops and implements Board policies and procedures, reviews academic programs, administers statewide financial aid programs, contracts for support of graduate study outside of Arkansas, recommends institutional operating, capital and personal services budgets to the legislature, and collects student and course data to form a statewide database. The authority of the Board is Arkansas Code Annotated; section 6-61-201 et. al., as amended.

B. The Board of Trustees

As a member of the University of Arkansas System, the Board of Trustees (Board) of the University of Arkansas System governs UAHT. The Board is appointed by the Governor and is composed of 10 citizens from across the state. The members come from various business, professional, and civic backgrounds and are representative of the citizens of Arkansas. The Board has demonstrated commitment to the mission, role, and scope of the community college members of the UA System. University of Arkansas Board of Trustees site: https://www.uasys.edu/leadership/board-of-trustees/

University of Arkansas Board of Trustees policy statements: https://www.uasys.edu/policies/board-policies/

To fulfill the purposes of shared governance procedures are established as a campus governance structure that promotes transparent decision-making aligned with the UAHT mission and strategic priorities. Processes define roles and responsibilities for governance bodies, ensure active participation from administration, faculty, staff, and students in shaping policies, procedures, and campus initiative. These procedures apply to all members of the campus community involved in governance. Governance committees include Chancellor's Cabinet, Academic Leadership, Curriculum Committee, Faculty Senate, Staff Senate, and Student Government Association.

Meetings and Operations

Each body shall conduct meetings that are announced at least five (5) days in advance, with agendas provided for their respective members. Meetings will be open to all represented individuals, though speaking privileges may be limited based on the rules established by each body. Minutes of all meetings shall be distributed promptly to members and archived for public access upon request.

Constitutional Changes

Proposed changes to the constitutions of the Faculty Senate, Staff Senate, and Student Government Association must be submitted for administrative review. The Administrative Cabinet will review these changes to ensure they align with campus policies and governance standards. Upon approval by the Administrative Cabinet, changes and any subsequent amendments will become effective.

Authority and Responsibilities

Version 1 - Drafted October 2024.

UAEACCP 200.1.1 CAMPUS GOVERNANCE

In accordance with the University of Arkansas Board of Trustees Policy 100.4 (Chapter III, Section 5, Campus Governance), the University of Arkansas-East Arkansas Community College (UA-EACC) shall draft procedures for campus governance.

Policies stated in this Governance Document require perpetual evaluation, review, and approval by appropriate University of Arkansas - East Arkansas Community College officials, University of Arkansas System Officials, and the University of Arkansas Board of Trustees. UA-EACC operates under applicable University of Arkansas Board of Trustees policies. The policies and procedures in the governance documents do not supersede or negate Board of Trustee policies, System-wide administrative memoranda or UA-EACC campus policies, but supplement such policies. All statements contained herein reflect policies in existence at the time this Governance Document was adopted and UA-EACC reserves the right to change policies at any time and without prior notice.

I. Campus Governance

This document provides a general set of guidelines and criteria congruent with the mission, vision, and purposes of UA-EACC and such guidelines and criteria are used to develop and recommend policies and procedures for UA-EACC, in accordance with the University of Arkansas Board of Trustees policies.

II. Authority and Responsibility

- The University of Arkansas-East Arkansas Community College (UA-EACC) is an educational
 unit that falls under the legal control and responsibility of the Board of Trustees of the
 University of Arkansas. The University of Arkansas is comprised of multiple campuses,
 divisions, and administrative units for which the Board of Trustees is the governing board of
 control. Collectively, these educational and administrative units are also referred to as the
 University of Arkansas System.
- 2. The administration of the University of Arkansas, under the authority of the Board of Trustees, is unified in the office of the President of the system. Subject to the policies established by the Board of Trustees and the system President, the UA-EACC Chancellor shall exercise complete executive authority for the campus. The Chancellor shall define the authority of administrative committees and officers of the campus, and all projects, programs, and institutional reports to be undertaken on behalf of the campus shall be subject to authorization and approval of the Chancellor.
- 3. The Chancellor shall be the official medium of communication between the system President and administrators, faculty, staff, and students. The Chancellor shall be a member of all faculties and other academic bodies of the campus and shall be a member of the campus governing bodies.
- 4. The campus governance structure shall be authorized to develop and recommend to the Chancellor educational and academic policies and programs on campus, including and related to such matters as: admissions requirements, degrees and requirements for degrees, curriculum, the academic calendar, academic honors, and student academic

affairs. The campus governance structure shall be authorized to make recommendations and provide input to the Chancellor on matters of general faculty, campus-wide, or systemwide concern. Through the Chancellor, such action may be reported to the President when considered necessary or desirable by the Chancellor, and, when considered necessary or desirable by the President, through the President to the Board of Trustees.

5. Nothing in this campus governance policy shall be deemed to restrict the ability of the Chancellor to develop and implement policies and procedures necessary to the operation of the campus that are consistent with Board and UA System policies. Nothing in this campus governance policy shall be deemed to restrict the ability the system President to coordinate the activities of campuses and units in accordance with the principles prescribed by the Board of Trustees. Campus governance bodies, administrators, faculty, staff, and students shall not communicate recommendations directly to the President or Board of Trustees, except as noted in Section 5 of this policy.

III. Organization

- 1. **Pathways for campus decision-making:** UA-EACC provides dual pathways for input into campus governance decision-making.
 - a. Administrative Pathway: any student, faculty, or staff member may offer input to any Dean, Director, and/or Coordinator who may present said input to the Associate Vice Chancellor(s), Vice Chancellor(s), or any of the Chancellor's direct reports. These senior administrators may then introduce the presented recommendation to one of multiple Shared Governance Committees or Councils, directly to the Chancellor's Cabinet, or directly to the Chancellor.
 - b. **Shared Governance Pathway**: student, faculty, or staff members may introduce a recommendation to one of multiple **Shared Governance Committees or Councils** or bypass the committees, appealing directly to the Chancellor.
- 2. The work of UA-EACC **Shared Governance Committees or Councils** shall be carried out in large part by the actions of each group as defined in Section II, paragraph 4. These provide a forum in which a greater detail of attention can be given to tasks and matters before recommending them to the Chancellor.

IV. Operation

- 2. Meetings of all **Shared Governance Committees or Councils** shall be open to all represented persons, although floor privileges may be limited.

- 3. For committees or councils taking up matters upon which a formal vote will be taken and a policy or procedure recommendation to the Chancellor made, meeting notices and the tentative agenda shall be publicized to the campus at least five (5) days in advance of the meeting, unless the Chancellor determines an emergency meeting is necessary to meet deadlines required by the system, division of higher education, or the Higher Learning Commission.
- 4. Minutes of the meetings of all committees or councils taking up matters upon which a formal vote will be taken regarding a policy or procedure recommendation to the Chancellor shall be made available to all members of the committee or council and the Chancellor within one week following the meeting. The minutes shall also be archived and made accessible to the public upon written request to the Chancellor, subject to the laws of Arkansas and policies of the University of Arkansas.
