TUITION NARRATIVES

The College of Medicine is requesting a 2.8% increase in base tuition for FY25-26. The College is above the mean of Public Medical Schools in the AAMC Southern region currently.
Student debt remains a concern. The student indebtedness in the COM remains above the southern average and about $35k above the national public school mean.

The College of Pharmacy is not requesting an increase in tuition for FY25-26. Tuition was increased by 3% in FY24-25 and was increased by 5% for FY22-23. Enrollment into Pharm. D. programs is highly competitive; therefore, keeping the COP tuition rate within the 25th percentile allows the UAMS COP to stay competitive within the region.

The College of Nursing is requesting an increase in the resident tuition for the graduate Masters and DNP Programs, as well as an increase in the resident and non-resident tuition for the DNP-CRNA Program in FY2025-2026. These recommendations will continue to keep tuition competitive with other nursing programs in Arkansas and the southern region.

The College of Health Professions is requesting to maintain its tuition rates for undergraduate and graduate programs. These recommendations will continue to keep tuition competitive with other allied health programs in the state and region. Starting in FY25-26, the in-state tuition rate is charged for the Audiology, Cytology, Medical Laboratory Sciences Traditional Program, Respiratory Therapy BS and MS, and Dietetics programs for the following border states: LA, MO, MS, OK, TN and TX. This will increase our ability to attract highly qualified non-residents in the region and highly qualified non-residents currently enrolled at colleges/universities within Arkansas. We are recommended to clarify the tuition rates currently being charged for MLTMLS-BS online, MLS Traditional, Extended Internship program and Non-Degree students.

The Graduate School is requesting an increase in tuition for FY25-26 of 1.7%. Rates will remain competitive within the region with the Graduate School being in the median for regional peer comprehensive academic health centers.

The College of Public Health is requesting an increase of 5% for FY25-26. We will remain slightly below the median for tuition base and slightly above the median in total tuition/fees among the 60 schools reporting to the ASPPH. Plus we remain competitive with other regional CEPH accredited schools.

Requesting an increase of $50 for FY26 due to the increased number of students in the dual degree programs and corresponding teaching and administration of these programs.

7 The following fees were included within the COM tuition rates starting Fall of 2017: Disability Insurance ($26/semester), Malpractice Insurance $188/semester), Standardized Patient Fee ($170/semester) and Curriculum Assessment Monitoring Fee (Exam Software) ($35/semester). 10 The CON sets the Undergraduate Standardized Patient Fee amount based on required usage of standardized patients.

11 The College of Nursing Graduate Program Fee is a generic fee that replaced the Advanced Health Assessment Fee previously charged to the graduate students enrolled in the Advanced Health Assessment course. The fee covers the use of standardized patients ($75), Typhon, a graduate student tracking software ($25), and the addition of Osmosis Clinical Sciences Library ($66). This fee is charged each semester to students enrolled in graduate programs.

12 The College of Nursing Progression Test Fee includes price increases associated with the cost of ATI, ExamSoft, ExamSoft Clinical Judgement Exams Complete Solutions,
Kahoot, and Nursing Central for the BSN students. The fee should be charged each semester.

13 Although not a fee, this deposit is due upon acceptance, as a reservation of enrollment prior to actual registration. It is non-refundable, but will be applied to the
first semester tuition if the applicant enrolls within a year.

14 The Anesthesia Professional Liability Insurance/Student Liability Insurance is provided to students only by the American Association of Nurse Anesthetists (AANA). The needed liability insurance for CRNAs is more comprehensive in the variety of anesthetizing locations in which they will gain clinical experiences.

15 The CRNA Progression Fee includes the costs of AANA/NBCRNA Dual Enrollment, SEE Exam and APEX. All components are either required and/or enhance performance with uniquely tailored assignments geared towards ensuring successful completion of the program. Students who were admitted into the program in 2020 and 2021 are exempt from the CRNA Progression fee. Starting with incoming Fall 2022 students, the fee will be charged annually during the Fall term.

16 The College of Nursing Graduate Simulation Fee is being added to support the use of PCS Spark which allows for formative and summative evaluations of student competencies. This fee is to be charged each semester to students enrolled in graduate programs.

17 The Pre-NAPLEX fee covers the cost of the Pre-NAPLEX exam. The exam will be administered to the P3 and P4 students.

18 The NAPLEX Prep Course fee is spread out over the duration of the program to cover the cost of an externally provided prep course to improve NAPLEX pass rate.

28 The Credit by Examination fee would apply to College of Health Professions courses for which a student demonstrates competency or equivalency in the subject matter. This would be similar to a CLEP exam. The fee for Credit by Examination would be 1/2 the per credit hour rate of the course in which the student is seeking credit.

12. Campus Report: Chancellor Steve Cole, Cossatot Community College of the University of Arkansas:

Chancellor Steve Cole presented "UA Cossatot: Then and Now" which outlined the institution's evolution over the past 50 years, from its beginnings in 1975 as Cossatot Vocational-Technical School with just 75 students, to its present status as UA Cossatot, a dynamic and expanding part of the University of Arkansas System. Key milestones include partnerships with Southern Arkansas University, its transformation into a technical college and later a community college, the development of multiple campuses in De Queen, Ashdown, Nashville, and Lockesburg, and its most important milestone: becoming part of the University of Arkansas System in 2001. Dr. Cole spoke about significantly expanding academic offerings, student support services, and physical infrastructure, including renovations, new facilities, and the implementation of cost-saving Open Educational Resources.

Dr. Cole provided insights into UA Cossatot's strategic vision, which emphasizes innovation, access, and workforce development. Its 2025 Facilities Master Plan proposes major upgrades across campuses, student housing, and enhanced technology. The college has launched or expanded programs in cybersecurity, medical lab technology, fiber optics, agriculture, veterinary technology, and athletics, positioning itself as a leader in rural workforce education. With a spring 2025 enrollment of nearly 1,500 students (credit and non-credit) and a focus on first-generation, Hispanic, and non-traditional learners, Dr. Cole talked about how UA Cossatot continues to align its mission with the needs of its community—committed to progress, people, and possibilities.

13. President's Report:

President Silveria reported on commencements held at the UA System campuses stating there were 39 ceremonies from May 2 to May 17 with the system graduating just under 14,000 individuals. He highlighted inspirational stories of students from several of the campuses as examples of the remarkable work of the UA chancellors and UA institutions across the system. He then called UA-PTC Chancellor Summer DeProw to come forward and recognized her as a University of Mississippi 2025 School of Education Hall of Fame

Inductee. The President and the Board congratulated Dr. DeProw for the recognition of her visionary leadership in higher education and workforce development.

Since that action, he and UA System staff have met with the faculty and staff at NAC to discuss the benefits of System membership and to investigate the alignment of institutional missions and participated in NAC led community meetings in NAC's region. CONSIDERATION OF REQUEST FOR APPROVAL OF UPDATED MISSION STATEMENT, UASYS (ACTION)

UofA
UNIVERSITY OF ARKANSAS SYSTEM

Office of the President

September 15, 2025

TO THE MEMBERS OF THE BOARD OF TRUSTEES

Dear Trustees:

As you are aware, the University of Arkansas System administrative team has worked to review and update our outdated strategic plan and mission statement. At the Board retreat in early August, we discussed this process and reviewed initial ideas for a new mission statement and for new "strategic pillars" to guide our work in the coming years. I distributed drafts of the mission statement and strategic pillars on August 25 to the Board and to our Chancellors and Directors across the system for feedback. While the work to gather feedback and refine the strategic pillars is ongoing, the revised mission statement is ready for your formal consideration.

The current mission statement of the University was adopted by the Board in 1989 during a time before the system included many of the campuses, divisions, and units that we have today. For example, the system did not begin adding community colleges as members until the late 1990s. While the current statement acknowledges our land-grant mission, including important roles in education and research, we felt the statement needed additional breadth to include the system's important public service, economic development and health care roles, along with incorporating our focus on continuous improvement through stewardship, responsiveness, and collaboration. While this statement is not meant to touch on each individual role or campus of the system, it is meant to provide overarching themes for the work we do across the state, and those themes will be further explored and defined through the strategic pillars. The proposed mission statement follows:

> The University of Arkansas System is a publicly supported, multi-campus institution committed to advancing Arkansas through education, scholarship, and service. Rooted in the land-grant tradition, the UA System expands access to academic, practical, and professional opportunities, fosters intellectual growth and student success, promotes discovery and public service, and strengthens Arkansas's economy, health, and culture. It remains focused on continuous improvement through resource stewardship, statewide responsiveness, and strategic collaboration across its campuses, divisions, and units.

I believe this statement acknowledges our heritage, the diversity of the work we do across the state, and the expectations of accountability for a 21st Century public higher education system. With your adoption of the revised mission statement, we will continue our work on the strategic pillars, which will include defining the metrics we will monitor related to those pillars in the years ahead.

I recommend approval of the revised mission statement. A resolution is attached for your consideration.

Sincerely,

JB Silveria

Office of the President

September 15, 2025

TO MEMBERS OF THE ACADEMIC AND
STUDENT AFFAIRS COMMITTEE:
Dr. Ed Fryar, Chair
Mr. Steve Cox
Mr. Randy Lawson
Mr. Jeremy Wilson

Dear Committee Members:

Chancellor Christy Drale, University of Arkansas at Little Rock, requests approval of the establishment of a Workforce Development Center, housed within the Office of the Executive Vice Chancellor and Provost. A summary of the proposal is attached.

UA Little Rock proposes this new center to bring together existing units from Study Abroad, University Career Services, Concurrent Enrollment, and Corporate and Community Education under a unified structure to enhance collaboration, optimize resource use, and better align university efforts with state and regional workforce priorities. The center is strategically designed to support students' academic and professional development while serving as a vital partner in economic growth for Central Arkansas and beyond.

The Workforce Development Center will function as a high-impact hub that leverages UA Little Rock's institutional strengths to address workforce needs through offering high quality career and technical education courses through concurrent enrollment, credit and non-credit pathways, and career development services. The proposal includes no new academic programs and minimal new funding to include a single finance manager position funded through internal reallocation. All other positions, space, and budgets are drawn from existing resources. UA Little Rock is confident that this initiative will significantly advance the university's mission and its contributions to the Arkansas workforce and economy.

The proposal has received the necessary campus approvals, and I concur with this recommendation. A resolution is attached for your consideration.

Sincerely,

Jay B. Silveria, President
Charles E. Scharlau Presidential Leadership Chair

UNIVERSITY OF ARKANSAS AT LITTLE ROCK

Workforce Development Center

LETTER OF NOTIFICATION

1. **NAME OF THE COLLEGE, SCHOOL, DEPARTMENT, OR UNIT IN WHICH THE CENTER WILL BE HOUSED.**

   The Workforce Development Center will be housed with the Office of the Executive Vice Chancellor and Provost in Academic Affairs. Units included in the Center include: Study Abroad, Concurrent Enrollment, Career Services, and Corporate and Community Education. Each of these units have existed on campus but have previously been housed in different departments. This plan centralizes workforce development and educational/career pathway units in order to maximize resources, enhance collaboration, and expand internal and external impact.

2. **NAME AND TITLE OF THE PERSON(S) PROPOSING CREATION OF THE CENTER.**

   Dr. Christina Drale, Chancellor; Dr. Ann Bailey Bain, Executive Vice Chancellor and Provost; and Dr. Aaron Duvall, Executive Director of Workforce Development

3. **THE CENTER TYPE (RESEARCH, SERVICE, OR INSTRUCTIONAL) THAT IS REQUESTED.**

   The Workforce Development Center is designed to be a vital resource for the university and our community partners by supporting the diverse units and initiatives housed within the Center.

   The Center is a service and instructional unit that maintains a direct, student-facing role while providing services that enhance student engagement, learning, and career readiness. Beyond serving the university community, the Workforce Development Center extends its reach through Corporate and Community Education, offering a broad array of programs and services to the surrounding community. These offerings include non-credit courses that address various personal and professional development needs. Additionally, the Center delivers targeted upskilling programs such as the Leadership Academy and AI for Businesses, which are designed to meet the evolving needs of industries throughout Central Arkansas. The Center will continue to initiate ongoing interactions with community businesses and members of our Community Partners Program to frame a systematic means of expanding needed career and upskilling programs.

   Study Abroad enhances the service component of UA Little Rock by preparing students to become globally minded, community-focused leaders. Through exposure to varying cultures and real-world experiences, students develop communication skills, and a deeper

understanding of several universal challenges, including global economic and workforce development issues. It also allows students to engage in meaningful projects while overseas, including global internships.

The Workforce Development Center incorporates a strong instructional component. Several units within the Center carry both instructional and advisory responsibilities that directly benefit students, providing them with essential guidance and expertise. For example, Concurrent Enrollment strengthens both the academic mission and community outreach of the university.

Instructionally, it ensures alignment between high school and college curricula and opens the door to expanded pathways, such as career and technical education offerings, to degree/credential completion. It serves the community by expanding access to higher education, reducing future college costs, and creating a clear pathway to college and career.

The placement of Career Services within the Center will ensure that UA Little Rock maximizes, coordinates, and systematically tracks the impact of cooperative education, internships, and other experiential learning opportunities. This structure further ensures all students have access to career guidance, interview preparation, and job placement resources. Additionally, the integration of services will enhance the effectiveness of internal and external career fairs, strengthen partnerships with employers, and provide sustained, high-quality career readiness programming aligned with regional workforce demands.

4. THE UNIQUE VALUE OF THE PROGRAM TO THE UNIVERSITY, AND THE DISTINCTION TO ANY SIMILAR PROGRAMS IN ARKANSAS.

The unique value of a Workforce Development Center to UA Little Rock lies in how it directly aligns with the university's mission to fostering quality education, promoting lifelong learning, and applying knowledge in unique ways that enhance workforce readiness and societal contributions. The Center will serve to support UA System workforce initiatives, state workforce initiatives, and university initiatives. Through events like a UA Little Rock workforce summit, the Center will help the university contribute to the economic and social advancement of the greater central Arkansas region. It will also provide students with greater access to workforce readiness programs, increasing their employability, and strengthening the university's impact.

Several distinctions set apart the Workforce Development Center at UA Little Rock. UA Little Rock's Center, embedded within an accredited research university, can offer pathways to graduate-level education and research partnerships, and grant greater access to faculty expertise and physical resources.

5. INFORMATION ON THE DIRECTOR POSITION AND THE ORGANIZATIONAL STRUCTURE.

The Executive Director of Workforce Development will report to the Executive Vice Chancellor and Provost. The Executive Director will be a member of the Provost Leadership Council.

6. IDENTIFICATION OF FACULTY (OR QUALIFICATIONS OF TYPE OF FACULTY), OTHER PERSONNEL, AND ACADEMIC UNITS THAT WILL BE INVOLVED WITH THE CENTER.

The Workforce Development Center will consist of four existing units: University Career Services, Concurrent Enrollment, Study Abroad, and Corporate and Community Education. Each unit and all personnel within those departments, including supporting staff will be considered part of the Workforce Development Center. The Center will have an administrative analyst position and a finance manager position to support the Center and all units within the Center. The only new position within the Center is the finance manager position.

7. STUDENT INVOLVEMENT, IF ANY.

The Workforce Development Center is dedicated to supporting both university-enrolled students through credit-bearing courses and non-university students through non-credit offerings. The Center will unify outreach and support students both internally and externally. Each of the units within the Center may employ graduate assistants and, occasionally, work-study students. Additionally, students may serve as ambassadors for both the individual departments and the Center as a whole.

8. ANNUAL BUDGET FOR THE UNIT OR THE ESTIMATED EXPENDITURES PER YEAR.

Each of the units housed in the Workforce Development Center already exist on the UA Little Rock campus and have established budgets and position lines that will remain in place. UA Little Rock plans to hire a dedicated financial manager for the Center with reallocated E and G dollars (base salary: $53,000 plus fringe). These are the only new funds allocated in the establishment of the Center. The salary for this position is included in the General Salary line below.

Budget Breakdown:

Category	General
Salaries	557,000
Fringe Benefits	139,250
Supplies & Services	163,308
Total	859,558
* General entails totals for Corporate and Community Education, Study Abroad, Concurrent Enrollment, and University Career Services	

This summary reflects E and G dollars and excludes designated funds and foundation accounts linked to specific units. Both Corporate and Community Education and Concurrent Enrollment have yearly income and expenditures that vary based on course offerings, enrollment, and course faculty salaries.

Salaries represent the largest expenditure in both categories. The general budget allocates $557,000 toward salaries. Fringe benefits follow a similar pattern, with the general budget dedicating $139,250.

For supplies and services, the general budget allocates $163,308.

In total, the general budget amounts to $859,558.

9. ESTIMATED FISCAL RESOURCES AND POTENTIAL SOURCES OF FUNDING (E.G., STATE, PRIVATE, ENDOWMENT, GRANT, CONTRACT, OR OTHER).

As the Workforce Development Center begins implementation, its primary source of funding will come from a UA Little Rock supplies and services fund established by the Office of the Provost. The salary for the Director of Career Services is funded with private dollars. The existing supplies and services budgets of each unit within the Center will be consolidated into the Center's overall budget.

Each unit also maintains designated accounts with earned income, which will be used to support and expand the Center's impact on students and the broader community.

Grant funding as well as unit annual revenue will play a pivotal role in the Center's growth. UA Little Rock has established infrastructure to monitor availability of federal and state grant opportunities. The infrastructure enables support for the development and submission of quality grant proposals as well as systematically reporting on funded grants.

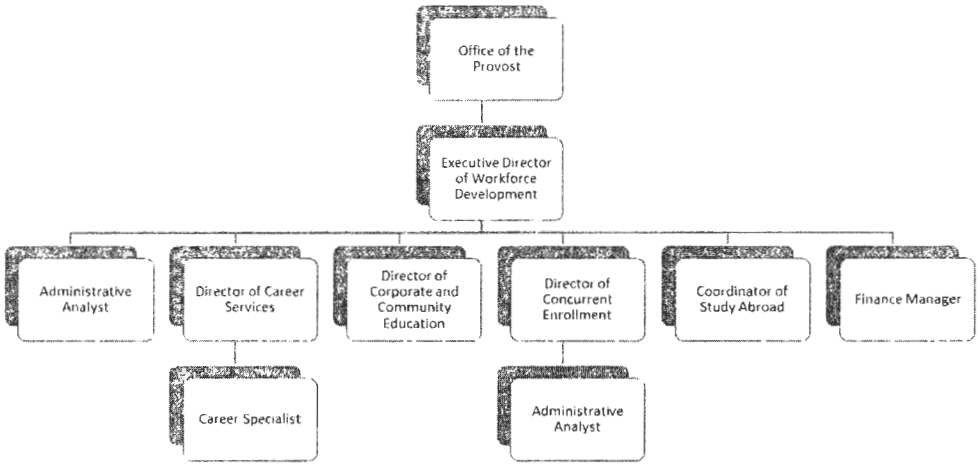
Examples of potential future funding opportunities include the Office of Skills Development (OSD). OSD offers workforce grants to help educational institutions and industries enhance employee training, close skill gaps, and boost statewide economic competitiveness. Funding is typically available for customized training programs, apprenticeships, and industry-recognized certifications, all of which are offered through Corporate and Community Education. Several other organizations and state or federal agencies also provide competitive grants for workforce development. Potential funding sources include CareSource and the National Science Foundation, which could support initiatives led by the Workforce Development Center.

Another promising source of funding is private philanthropy. University Career Services has already received a donation from the Taylor Foundation to expand paid internships across the university. Additional private gifts and/or endowments will be actively pursued to further support and grow these efforts.

10. SPACE AND EQUIPMENT NEEDS OF THE CENTER AND A DESCRIPTION OF HOW THEY WILL BE MET.

The Center will be located in existing equipped space on the fourth floor of the Reynolds Building. Nine offices are available on this floor that are designated for use by Center staff. The Career Closet, located on the first floor of the Reynolds Building, includes two additional offices that will be used by graduate assistants. The designated space also includes a classroom and conference room. Additional space for workforce training is available within the Reynolds building and within the UALR Downtown space. An additional conference room on the fourth floor (operated by MidSouth) can be reserved by the Center as needed.

11. DESCRIPTION OF ADMINISTRATIVE CONTROL AND LINES OF AUTHORITY FOR THE CENTER.



The Workforce Development Center operates under the Office of the Executive Vice Chancellor and Provost. The Executive Director of the Workforce Development Center will be a direct report to the Provost and will serve as a member of the Provost Leadership team. Direct reports to the Executive Director are noted in the organizational chart. Each unit director/coordinator is responsible for managing the staffing and operations within their respective units.

12. DESCRIPTION OF THE ADVISORY BOARD, INCLUDING ITS SIZE, THE METHOD OF ITS SELECTION, AND THE LENGTH OF TERMS.

The Workforce Development Center Advisory Board will serve as a strategic advisory body that supports the mission and growth of the Workforce Development Center by providing community insight, industry expertise, and guidance on workforce trends and needs. The board will be composed of five community members, each serving a three-year term with the option for one consecutive reappointment. To ensure continuity, initial members may be assigned staggered terms (e.g., one-, two-, and three-year terms) during the board's inaugural year. The board will meet quarterly, with special meetings scheduled as needed.

UNIVERSITY OF ARKANSAS SYSTEM

Office of the President

September 15, 2025

TO MEMBERS OF THE BUILDINGS
AND GROUNDS COMMITTEE:
Col. Nate Todd, Chair
Mr. Steve Cox
Mr. Judd Deere
Mr. Ted Dickey

Dear Committee Members:

Chancellor Charles Robinson at the University of Arkansas, Fayetteville, is requesting approval to sell five acres of undeveloped property located in eastern Washington County, Arkansas.

The University of Arkansas, Fayetteville, received this property as a gift from Dr. Jack H. Cole in memory of his wife, Carol Sue Cole. Pursuant to the associated gift agreement, the real estate, comprised of five acres in the Northwest part of Goshen, near the White River, was for use for research and educational purposes relating to the environment, conservation, hydrology, and water quality, with specific research and programs to be directed by a former faculty member. At such time that the faculty member (now retired) was no longer employed by the University, the Chair of the Department of Geosciences was charged with directing such research and programs. The gift agreement further provided that, if the Board of Trustees were to determine that it was impractical to use the property as described, then the Board was authorized to sell the property, with the proceeds to be used to create an endowment benefitting the Fayetteville campus, in the names of Jack and Carol Sue Cole, to support research and education in the areas of the environment, conservation, hydrology, and water quality.

On September 12, 2024, the Board approved a resolution determining that it was impractical to use the property for research and education purposes, and that the property should be sold, with the proceeds to establish an endowed research and education fund to benefit the University of Arkansas, Fayetteville, in the names of Jack and Carol Sue Cole. Further, the Board approved a resolution authorizing the University of Arkansas to offer said property for sale, with the proceeds to be used to establish The Dr. Jack H. Cole and Carol Sue Cole Endowed Fund for Research and Education in the Environment, Conservation, Hydrology, and Water Quality, with spendable income to be administered by the Chair of the Department of Geosciences, subject to the approval of the Dean of the Fulbright College of Arts and Sciences.

Maps showing the location of the property are attached to this letter. The University marketed the property through Colliers Arkansas, Inc. J. David Ewing made an offer in the

amount of $255,000, which is the appraised value of the property. The University accepted this offer, subject to the Board's approval.

I concur with Dr. Robinson's recommendation and have attached a resolution for your consideration.

Sincerely,

Jay B. Silveria, President

CAPITAL PROJECT PROPOSAL FORM

campus: **Fayetteville**

name of proposed facility: **classroom building project**

1. PROPOSED FUNCTION OF PROJECT

This project will add around 110,000 square feet of new space on the last remaining site available for development within the Walton College precinct. Two recent studies have informed the program of the new building. The first is the Walton College Study, started in late 2022, which documented existing conditions of the college's buildings, analyzed programmatic relationships among departments, and surveyed faculty, staff, and student perceptions of the college's spaces. The second is the Campus Space Use Study, started in late 2023, which documented and analyzed all academic space across campus, projected future needs, and recommended new space management strategies. The campuswide study showed a deficit in academic, research, and student-focused space with even minimal growth in overall enrollment, while the college-focused study showed a distinct need for right-sized classrooms and collaborative space within the college. It noted, for example, that in the 2024-25 academic year, over 400 business classes were not taught in Walton College buildings due to the mismatch of existing rooms and class section sizes.

In response to the studies, the primary goal for the new building is to increase the number of large classrooms available for Walton College use, which will in turn free up classroom space across campus. An initial building test fit confirmed that a five-story building at 110,000 square feet could house 17 new classrooms with capacities of 70 seats and up. These new classrooms will help free instructional spaces throughout the rest of campus for other academic units and concentrate the college's activity within its own precinct. Along with classrooms, the new building will create a student hub for study, collaboration, and innovation. Survey responses have shown that Walton College students currently feel they have no on-campus "home" and tend to leave campus outside of class time. The hub will provide a lively environment that encourages students to stay and interact with their peers and faculty throughout the day. The McMillion Innovation Studio, which is currently located across the street in a small storefront space, will be moved and co-located with the student hub to engage more students with the Studio's culture of innovation. The test fit envisioned both of these active spaces on the ground floor, opening up to the surrounding campus landscape, and creating a welcoming presence for students, faculty, and visitors.

2. PROPOSED FACILITY LOCATION AND DESCRIPTION

The site is located southeast of Willard Walker Hall, facing Harmon Avenue.

3. TOTAL ESTIMATED PROJECT COST

$100 million

4. TOTAL ESTIMATED COST OF FURNISHINGS

to be determined as the program and design are developed

5. ESTIMATED TIME TO SUBSTANTIAL COMPLETION

September 2025	*consultant selection to Board of Trustees*
May 2027	*construction starts*
June 2029	*project complete*

6. PARKING PLAN TO SUPPORT NEW OR EXPANDED FACILITY

In August 2023, the university hired a consultant team to study how parking can be more effectively managed throughout campus and where additional parking is most needed, in concert with upgrades to transit operations and other modes of transportation. Work is currently underway to implement those recommendations. Harmon Avenue Garage will continue to provide parking for faculty, staff, and students in the area, directly across the street from the new building.

EMR: Experience Modification Rate (EMR) has strong impact upon a business. It is a number used by insurance companies to gauge both past cost of injuries and future chances of risk. The lower the EMR of your business, the lower your worker compensation insurance premiums will be. An EMR of 1.0 is considered the industry average. EMR numbers are based on a 3-year rolling average.

BOND RATE: We acknowledge bond rates as a measure of company health. Bond rates generally vary with the size of the contract and are expressed to us as dollar per 1000 dollars. Lower bond rates are more favorable.

UNIVERSITY OF ARKANSAS SYSTEM

Office of the President

September 15, 2025

TO MEMBERS OF THE BUILDINGS
AND GROUNDS COMMITTEE:
Col. Nate Todd, Chair
Mr. Steve Cox
Mr. Judd Deere
Mr. Ted Dickey

Dear Committee Members:

Chancellor Terisa Riley, University of Arkansas at Fort Smith, is requesting authority to demolish the 51st Annex facility, located at 425 N 51st Street, Fort Smith, Arkansas.

The 51st Annex is a former nursing home that was acquired in October 2007 for the purpose of serving as additional office space for UAFS faculty and staff. Built in the 1960's and added onto in the 1980's, the 51st Annex is approximately 16,339 square feet of space. The building has suffered from water damage, infestation, and deterioration over the past decade. Due to its condition, the building is empty and has been unoccupied for almost two years. In 2018, the UAFS Facilities Audit Program (FAP) report estimated the cost of deferred maintenance for the building of almost $1.2 million. Therefore, remodeling the building is not economically feasible. Further, it is no longer practical to bear the expense of maintaining the property for which over $27,000 is spent annually on gas and electric. It will cost approximately $288,000 to demolish the building.

I concur with Dr. Riley's recommendation. A proposed resolution for your consideration follows.

> BE IT RESOLVED BY THE BOARD OF TRUSTEES OF THE UNIVERSITY OF ARKANSAS THAT the University of Arkansas at Fort Smith is hereby authorized to demolish the 51st Annex facility which currently exists on the campus of the University of Arkansas at Fort Smith.

UNIVERSITY OF ARKANSAS SYSTEM

Office of the President

September 15, 2025

TO MEMBERS OF THE BOARD OF TRUSTEES

Dear Trustees:

Vice President for Agriculture Deacue Fields has requested approval of the Division of Agriculture's strategic plan, *Growing Stronger,* to set the Division's course for the next decade. A summary of the plan is attached.

Work on the plan began in early 2023, as Assistant Vice President Stacey McCullough and her Community Professional and Economic Development Department faculty began surveying the people served by the Division. In February 2024, about five dozen employees from all over the Division of Agriculture gathered at the Winthrop Rockefeller Institute to take the strategic plan project to its next phase. These employees — a cross-section of the organization including support staff, faculty, county staff and administration — had the hard work of distilling the hundreds of responses gathered during the surveys and listening sessions. These employees were divided into five groups that embraced the breadth of what UADA does. The following topics/challenges emerged:

- Helping Communities Thrive;
- Advancing Innovation;
- Preparing the Workforce;
- Enhancing Resilience and Sustainability;
- Supporting a Healthier Arkansas; and
- Achieving Excellence.

The groups began with a SWOT analysis, looking at all the data and seeing the strengths, weaknesses, opportunities and threats. From there, they were tasked to create two sets of objectives: internal and external. With the objectives set, the final phase of plan development was implemented: establishing metrics to measure successes or to work to recalibrate.

Pending your approval, the Division plans to officially release the strategic plan this fall and immediately begin work on the goals and objectives identified.

I concur with Dr. Fields recommendation. A proposed resolution for your consideration follows.

BE IT RESOLVED BY THE BOARD OF TRUSTEES OF THE UNIVERSITY OF ARKANSAS THAT the University of Arkansas System Division of Agriculture's 10-year strategic plan presented to the Board at its September 26, 2025, meeting is hereby approved as presented.

Sincerely,

Jay B. Silveria

    a. The Appointment, Promotion, and Tenure Committee may, on its own initiative, make recommendations regarding faculty status to appropriate officers and bodies.

UNIVERSITY OF ARKANSAS SYSTEM

Memorandum

TO: Members of the Board of Trustees of the University of Arkansas; Chancellors and CEOs of the campuses, divisions and units of the UA System

FROM: UA System Administration

RE: Proposed Board of Trustees Policy changes to be presented at the Sept. 26, 2025, regular Board meeting

DATE: August. 26, 2025

Enclosed are drafts of one new and two revised Board Policies that will be presented to the Board for consideration at the September 26, 2025, regular Board of Trustees meeting. The enclosed policy drafts are red lined to show the proposed changes. These drafts are being presented to you in accordance with UA System Policy 220.1, which requires proposed Board Policy amendments to be shared with the Board and the Chancellors and chief executives of the campus, divisions, and units at least 30 days before the Board meeting at which the policies will be considered. Questions regarding these proposed policy amendments can be directed to the appropriate system staff via the President's Office or Ben Beaumont (bbeaumont@uasys.edu).

The proposed policy amendments include:

New Board Policy 220.1 *Interactions with Foreign Adversaries and Instrumentalities* – This policy implements requirements under Act 473 of 2025, also known as the Research Education Protection Act, which governs gifts, contracts, cultural exchange agreements, and more with foreign adversaries and foreign instrumentalities. The Act requires institutions to make certain disclosures to their boards of trustees regarding gifts or contracts offered or proposed from foreign adversaries or instrumentalities and requires board approval for such gifts or contracts only if they address an overwhelming state or national interest. The Act also requires certain disclosures and reporting to the Department of Inspector General, Governor and legislative leadership regarding cultural exchange agreements, partnerships or agreements, and research partnerships with foreign adversaries or instrumentalities. Finally, the Act prohibits institutions from using or contracting for software or software programs controlled or owned by companies or entities in foreign adversary countries and institutes screening requirements for hiring and research and foreign travel to foreign adversary countries. The policy also includes draft forms for disclosure of gifts, contracts, agreements and partnerships, and research partnerships as defined in the Act.

Revised Board Policy 1215.2 *Admissions Policy – University of Arkansas College of Medicine* – The revised policy addresses changes to the UAMS College of Medicine admissions process mandated by Act 806 of 2025, which amends existing law regarding geographical requirements for admitting students to the college. The Act provides that preferences be given to Arkansas residents and that 25 positions in the freshman class be allocated to residents of each of four federal congressional districts. The Act and revised policy stipulate that if there are not 25 applicants from a congressional district who meet the admissions standards and accept admission, the remaining

positions shall be filled by qualified Arkansas residents, and then by applicants who are most likely to complete the program and reside in Arkansas after graduation. The Act also requires that an additional 25 positions be allocated to Arkansas residents without respect to congressional district of residency and remaining positions may be filled by applicants at large.

Revised Board Policy 285.1 *Cybersecurity* – The revised policy cleans up existing language to allow for notifications of a security breach involving sensitive information may be made either electronically or through other means, if necessary.

No institution shall enter in a contract until the Board has issued its decision.

C. Cultural Exchange Agreements

An institution shall not participate in a cultural exchange agreement with a foreign adversary or entity controlled by a foreign adversary unless the agreement (a) addresses an overwhelmingly under addressed state or national need and (b) avoids constraining the freedom of contract of the public entity; avoids allowing the curricula or values of the program in the state to be directed, controlled, or influenced by the foreign

adversary; and avoids promoting an agenda detrimental to the safety or security of the state, residents of the state, and the United States.

Prior to entering into any cultural exchange agreement, each institution must share the proposed agreement with the Department of Inspector General to determine if the agreement is detrimental to safety or security. An institution may not enter into the agreement if the Department of Inspector General determines the agreement is detrimental to safety or security.

J. Partnerships or Agreements

By no later than July 1 of each year, each institution must submit to the Board the following information relating to partnerships and agreements with educational and other institutions based in foreign adversaries: data reflecting any program, agreement, partnership, or contract between an institution and any college, university, or entity that is based in or controlled by a foreign adversary; data reflecting any office, campus, or physical location used or maintained by an institution of higher education in a foreign adversary; and the termination date of any program, agreement, partnership, or contract.

The Board will submit a report, by December 1st of each year to the Governor, the President Pro Tempore of the Senate, and the Speaker of the House of Representatives containing the identified information.

D. Research Partnerships

Prior to entering or renewing a research partnership with a foreign instrumentality, the institution should (a) ensure that it maintains sufficient structural safeguards to protect the intellectual property of the institution and (b) disclose the research partnership to the Board by using a standard form approved by the General Counsel of the University. The disclosure shall be made prior to every regularly scheduled Board meeting.

The Board will determine and notify the institution if sufficient structure safeguards exist to protect the intellectual property of the institution.

Any proposed research partnership agreement should reflect that the Board has full discretion to reject or terminate a research partnership agreement, at any time or for any purpose, with an academic or research institute located in a foreign adversary.

E. Software

Institutions are prohibited from using or contracting with entities domiciled, controlled, or owned by companies or other entities domiciled in foreign adversary countries that host, operate, or own software or software programs.

G. Screening Requirements for Hiring and Research and Foreign Travel to a Foreign Adversary Country

For institutions with federal research expenditures exceeding $10,000,000, each institution shall implement the requirements of Ark. Code Ann. § 6-60-1610 for screening requirements and Ark. Code Ann. § 6-60-1611 for foreign adversary travel. Each institution shall provide an annual report to the Board by July 1st identifying official university travel to a foreign adversary country, in the prior fiscal year, that identifies each traveler, location visited, and institution visited.

ADMISSIONS POLICY - UNIVERSITY OF ARKANSAS COLLEGE OF MEDICINE

I. Introduction

A thriving medical school is critical for Arkansas's continuing development and success in medical education, biomedical research, and healthcare. The College of Medicine is dedicated to being a leader and advancing the limits in each of these areas. To accomplish these goals, the primary duty of the College of Medicine is to train individuals to become superbly competent physicians, as judged by their knowledge, skills and attitudes.

Certain characteristics are desirable in all individuals entering the profession of medicine. A student must have the intellectual capacity to absorb, integrate, and use a voluminous body of knowledge at a rate rarely required in his or her previous experience. Compassion, integrity, stamina, good judgment under pressure, and dedication to the service of mankind should be fundamental personal attributes; curiosity and a sustained ability to learn are uniformly desirable. Finally, the student body should be drawn from all groups of society, rather than favoring one over the other.

II. The Admissions Committee

In accordance with Arkansas Code Annotated § 6-64-406, the composition and responsibilities of the College of Medicine Admissions Committee are as follows:

[The Admissions Committee] shall be composed of fifteen (15) members to be appointed by the Board of Trustees of the University of Arkansas. Six of the members shall be members of the faculty of the University of Arkansas College of Medicine. Eight of the members shall be appointed from each of the four congressional districts. One member shall be appointed from the state at large. The Board shall promulgate reasonable rules and regulations as necessary to the fair and competitive selection of freshmen medical students with due consideration being given scholastic standings, recommendations of the premedical advisory committees of the various schools where the applicants pursue their premedical studies, their performance on the Medical College Admissions Test, and any other procedures that can be developed that would deal fairly with the applicant group as a whole.

Additionally, as modified through Act 313 of 2013, in order to comply with the accreditation standards of the Liaison Committee on Medical Education (LCME), the composition of the Admissions Committee shall be composed of the following:

Eight of the members, at least four of whom shall have faculty appointments in the University of Arkansas College of Medicine, shall be appointed from each of the four congressional districts and shall be apportioned on the basis of two members from each congressional district.

The minimum number of Admissions Committee members necessary to constitute a quorum is eight (8) of the total (15) fifteen members. Faculty members must constitute the majority of voting members in all meetings in compliance with LCME standards.

The final authority for selecting the entering freshmen class rests with the College of Medicine Admissions Committee.

III. Requirements for the Applicant

The College of Medicine participates in the American Medical College Application Service (AMCAS) which is a centralized application service sponsored by the Association of American Medical Colleges. Only applications submitted through AMCAS and received between July 1 and November 1 each year will be considered.

Each applicant must sit for the Medical College Admission Test (MCAT) not later than September preceding the anticipated enrollment date. Test scores taken more than three years prior to application cannot be accepted.

At least 90 semester hours of acceptable academic work are required for admission, and a baccalaureate degree is required.

Accepted applicants must successfully complete the following courses prior to matriculation in the College of Medicine:

3 semesters of Biology (to include 1 semester of Genetics)
3 semesters of Chemistry (to include Organic Chemistry and Biochemistry)
2 semesters of Physics
2 semesters of English
1 semester of Statistics
2 semesters of Social Sciences*

*Psychology and Sociology are strongly recommended. Courses listed in the American Medical College Application Service (AMCAS) Course Classification Guide for Behavioral Sciences (Anthropology, Economics, and Family Studies) and Philosophy and Religion (Ethics, Logic, Philosophy, Religion, and Theology) are acceptable.

Applicants who have not been enrolled in an academic program for some time prior to application may be advised to enroll for refresher work prior to applying.

IV. Admission for Residents and Non-Residents

Arkansas law mandates that preference be given to Arkansas residents. Ark. Code Ann. § 6-64-406 requires that 25 positions in the freshman class must be allocated for residents from each of the four federal congressional districts. If there are not 25 applicants from a congressional district who meet published admissions standards and accept an offer of

acceptance, the remaining positions for that particular congressional district shall be filled by qualified applicants who are Arkansas residents, and then by applicants that are most likely to complete the program and reside in Arkansas after graduation.

An additional 25 positions shall be allocated to applicants who are Arkansas residents without respect to congressional district of residency. If there are not 25 applicants who are Arkansas residents who meet published admissions standards and accept an offer of acceptance, the remaining positions shall first be filled by qualified applicants who have ties to Arkansas, and then by applicants who are most likely to complete the program and reside in Arkansas.

Positions in excess of the first and second groups of applicants (125 positions) may be filled by applicants at large.

Applicants who identify their legal state of residence as Arkansas on the AMCAS application will be sent an Arkansas Resident Status Initial Classification form. The Office of Admissions will use the information submitted by the applicant on this form to verify Arkansas residency and verify one's congressional district.

Applicants who designate a state other than Arkansas on their AMCAS application as of December 1 of the admissions cycle will be classified as non-Arkansas residents for the entire admissions cycle. No exceptions will be made.

Non-Arkansas residents who have met the requirements and criteria provided by Ark. Code Ann. 6-64-406(b)(2)(B) demonstrating "ties" to Arkansas are instructed to submit a letter advocating their ties to the state. Those determined to have established "ties" will be given preference over non-Arkansas residents who have no ties to Arkansas. Typically, "~~strong~~ ties" means the applicant has lived in Arkansas, attends school in the state, has close relatives living in Arkansas, or other information clearly demonstrating the applicant has roots in the state. The ultimate goal of determining if a non-Arkansas resident has ties in the state is to assess the likelihood, although there are no guarantees, the applicant may someday practice medicine in Arkansas.

Applicants who falsify information submitted in their application with regard to establishing Arkansas residency and/or congressional district, or applications with conflicting information, will be brought to the attention of the Admissions Committee.

V. The Selection Factors

Selection is based on the consensus of the Admissions Committee's evaluation of the following items:

Medical College Admissions Test (MCAT):
The MCAT, a nationally standardized exam, has been a tool used by admissions committees since 1928 to help assess an applicant's preparation for medical school and predict an applicant's success in handling the rigors of the medical school curriculum.

Grade Point Averages (GPA)

1. Undergraduate cumulative and science GPA, and if applicable
2. Graduate School GPA, and if applicable
3. Post-baccalaureate courses GPA
4. Breakdown of GPA for BCPM: Biology, Chemistry, Physics and Math

Applicant's Personal Comments
The applicant's personal comments describing his/her motivation to become a physician is a critical component of the applicant's admissions application. This is an opportunity for the applicant to clearly convey his/her passion for medicine and compassion for people.

Biographical / Academic Profile
This is an overview of the applicant's credentials listing a breakdown of the applicant's GPA, MCAT scores, results of the premedical advisory committee's composite evaluation letter and College of Medicine faculty interviews.

Socio-Economic Status (SES) Index
AAMC Goal: To establish summary measures of an applicant's socio-economic status that will enable medical schools to clearly understand the nature and extent of SES diversity among our medical student applicants and meet the necessary challenge of expanding the definition of diversity to socio-economic status to meet the needs of holistic review.

Premedical Advisory Committee Composite Evaluation Letter
If it has been two years or less since an applicant last attended or graduated from a college, he/she must request a letter from the school's Premedical Advisory Committee. However, if it has been more than two years, or if the college does not have a Premedical Advisory Committee, the applicant must request three faculty members to submit letters of recommendation. In addition (optional), the applicant may include three "personal" letters of recommendation in his/her file, letters that attest to the student's performance outside the classroom, i.e., integrity, empathy, work ethic, leadership abilities, team player, distance traveled, etc. from individuals who know the applicant well.

VI. The Selection Process

When the material from the above factors has been completed for each candidate, the members of the Admissions Committee rate each applicant on a scale of 1 through 7, where 1 is poor, 4 is average, and 7 is superior. The Board members complete all ratings independently and each member's rating shall be weighted equally. The individual scores are recorded, and the mean scores are used to rank-order the applicants. The scores will determine which applicants are to be granted admission, in accordance with Arkansas Code Annotated § 6-64-406 concerning allocation of admissions among Arkansas Congressional

Districts. The Admission Committee has the final responsibility for accepting students into the College of Medicine. The list of admitted applicants is sent to the Dean of the College of Medicine (or his/her designee), and the Assistant Dean of Admissions, who notifies the admitted applicants.

VII. Notification of Applicants

The College of Medicine notifies applicants of their acceptance once the admissions committee makes the decision. This takes the form of a letter stating that the application has been approved and requesting that acceptance of the proffered position be submitted in writing to the Dean within two weeks.

After the Admissions Committee determines which applicants will be accepted, the Committee places the next highest-ranking applicants on the "Alternate List." Pursuant to Act 1058 of 2007, alternates who sign Rural Practice Student Loan/Scholarship Program contracts are able to advance to the top of the Alternate List. Each alternate must be interviewed and approved by the Arkansas Rural Medical Practice Board before they can be advanced on the Alternate List.

CYBERSECURITY

I. Purpose

Information is among the University's most valuable assets. The University often relies on sensitive information to operate effectively and support its central missions of teaching, research, and service. The University consists of research-focused institutions that regularly obtain and store confidential, proprietary data. In addition, the University is frequently required to maintain personally identifiable information that is protected by state and federal law, including education records, health data, and financial information. The security of the University's information, and the technologies and systems that support it, is the responsibility of all employees, vendors, and other stakeholders.

There are numerous persons and organizations who desire to exploit computer systems and acquire intellectual property, personnel information, financial records, and other sensitive information. Cybersecurity threats and information system vulnerabilities are constantly increasing and evolving. The nature of the cybersecurity threats—along with efforts to manage the associated risks—will inevitably grow in complexity.

II. Systemwide Information Security Framework

To efficiently and effectively minimize risks to the confidentiality, integrity, and availability of information, the Board requires a systemwide information security governance and information security program that employs prudent security policies, technological standards, and safeguards. Each institution may augment the systemwide information security program with appropriate institution specific supplemental policy and procedure information. Sensitive or confidential information that has been created, collected, or distributed by the University should be classified and protected from unauthorized disclosure, access, modification, and destruction. In furtherance of these objectives, the Board assigns responsibilities as follows:

A. The System Chief Information Officer (System CIO) will have the authority to require measures to keep pace with developing cybersecurity threats across the System. The System CIO will oversee the development and maintenance of the systemwide information security program and information security governance practices, subject to approval of the President. The System CIO will ensure that any third-party applications, integrations, and other systems interacting with the system-wide financial, human capital management, student information system, and other technology platforms adhere to the information technology governance standards defined by the UA System, including a review process before purchase or deployment.

B. The Systemwide Information Security Governance Committee, chaired by the System CIO and consisting of one representative designated by the chancellor or chief

executive of each institution, will provide guidance to the System CIO on system information security policies. Each institution's representative will be responsible for ensuring institutional compliance with system information security policies and for coordinating and implementing necessary institutional policies unique to their respective campus, unit or division.

C. In the event of a material security breach involving the unauthorized acquisition of or access to sensitive information, the information technology personnel for the affected campus or unit shall promptly notify the appropriate campus administrators, the System CIO, the Internal Audit Department, and the Office of the General Counsel. The notification shall include the following:

i. a description of the incident;
ii. the number of individuals affected;
iii. the nature of the information affected; and
iv. actions taken to prevent further breaches of security.

The Office of the General Counsel shall assist campus or unit officials in ascertaining the nature and scope of any notifications necessitated by state or federal law to affected individuals or government entities. Notifications to affected individuals may be made through electronic means unless a law requires a different method. The General Counsel and System CIO will facilitate any law enforcement investigations that may be initiated.
